PROGRESS FOR THIS WEEK
- Finished APIs
    - GET /genre (retrieve list of genres)
    - POST /genre (add genre)
    - DELETE /genre/{genre_id} (delete genre)
    - GET /book (get all books)
    - POST /users (create user)
    - POST /users/login (logs user) (with issues on token)
    - GET /users/{username} (get user by user name}
    - GET /users/logout (logout)
- ~65% of interfaces are done

CONTRIBUTIONS OF EACH MEMBER
- Arvince Neil Alcaide (20%)
    - Login API
        - Some problems with token
    - Logout API
- Jan Lorenz Aurelio (19%)
    - Frontend design
        - Did all of it
- Mark Ryan Castillo (21%)
    - User list functionality
        - Added data tables
    - JSON support
- Ethnica Jaya Carantes (19%)
    - Database creation
    - Table creation
    - Database population
- Daiben Angelo Sanchez (team lead) (21%)
    - /genre functionality
    - /book querying
    - /user creation

PLANS FOR THE FUTURE
- This week
    - Finish all unfinished functionalities
        - GET /genre/{genre_id}
        - POST /genre/addbook/{genre_id}
        - POST /book
        - GET /book/{book_id}
        - DELETE /book/{book_id}
        - POST /admin
        - GET /library
        - POST /library
        - POST /rate
        - GET /rate/{book_id}
    - Fix login token issues
    - Make interface more responsive
    - Finish up remaining interfaces
    - Finalize database
- Next week
    - Start testing
        - Explore JENKINS
        - Create test cases
    - Create the database schema
    - Testing and debugging
